PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The following letter No. 15, dated 8th August 1910, from the Superintendent, Inam Settlements in Mysore :—

"I have the honour to forward herewith the Administration Report of the Inam Department for the year 1909-10.

2. There were no changes in the staff.

3. *Cases during the year.*—During the year under report, two land inams comprising an extent of 1 K. 18 c. 14 p. assessed at Rs. 45-6-10, were newly confirmed on which a combined quit-rent of Rs. 32 was fixed. One Muzrai inam of the value of Rs. 2-10-0 was also confirmed during the year.

Nine cases were struck off and resumed during the year under report, by which Rs. 30-4-0 were reduced in inam revenue, while there was a corresponding increase of Rs. 178-4-6 under land assessment.

4. *Revision of inams.*—Four minor land inams were revised on the authority of orders received from Government. In this connection the combined quit-rent was reduced by Rs. 11-4-0.

5. *Registers.*—The number of quit-rent registers prepared was twelve for confirmed cases and thirty-six for resumed and struck-off cases In addition to this, one hundred supplemental final quit rent registers were prepared on Purvani Tarat Patriks and despatched.

6. *Extracts and title-deeds.*—The number of *ad-interim* extracts and title-deeds prepared was two and one Muzrai.

7. *Final title-deeds for minor inams in Sirkar villages.*—Out of 8,250 title-deeds for minor inams in Sirkar villages that remained to be prepared at the beginning of the year under report, 1,500 belonging to the Taluks of Chintamani, Sidlaghatta and Srinivasapur were prepared and compared. They will be despatched for delivery as soon as the taluks are completed.

8. *Final title-deeds for inam villages.*—The final title-deeds for whole-inam villages in the Kadur and Chitaldrug Districts have been prepared. They will be compared and despatched in due course.

9. *Revised final quit-rent registers.*—The revised final quit-rent registers of Magadi, T.-Narsipur, Nanjangud and Kolar Taluks were corrected, compared and despatched to the Secretariat and other offices. The number of cases in these quit-rent registers was 3,788. The work of comparing one register with the original survey and inam records and the necessary correspondence with the taluks in its connection is so laborious and takes up so much time that the work progresses slowly. After the office copy has been completed, nineteen other copies have to be compared, etc.; and then distributed. Notwithstanding this difficulty, it is satisfactory to note that the revised final quit-rent registers of four taluks comprising as many as 3,788 cases should have been distributed during the year under report. There still remain Sidlaghatta, Srinivaspur Chintamani and Malur taluks, the registers of which have to be compared and despatched.

The revised final quit-rent register of the Bowringpet Taluk was completed and sent to Press for being printed.

10. *Inam Revenue.*—The inam revenue was reduced by Rs. 9-8-0 during the year under report, as shown below, while the corresponding revenue under land assessment was increased by Rs. 178-4-6.

	Rs.	a.	p.
Quit-rent imposed on confirmed inams	32	0	0
Deduct on account of resumed and struck-off cases	30	1	0
Do do revision	11	4	0
Total ...	41	8	0
Balance decrease ..	9	8	0

11. *Expenditure.*—The total cost of the Department was Rs. 4,490-12-0 as against Rs. 5,090-7-7 in the year previous. The decrease was mainly owing to the grain compensation allowance being stopped during the year under report and the reduction of the menial staff as ordered in Government Proceedings No. G. 6620-45—G. M. 236-07-1, dated 13th May 1908.

12. *Total cost of the Department.*—Total cost of the Department from 1868 up to the end of the year under report, was Rs. 11,71,934-11-11 and the total annual recurring revenue is Rs. 2,74,519-1-0.

13. *Correspondence.*—The amount of correspondence, both English and Vernacular, was 1,501 against 1,730 in the year previous.

14. *General remarks.*—The work of the Department cannot be measured on the quantity of work done but on the quality. It is more or less technical and I am glad to say that the establishment has worked hard and satisfactorily during the year under report."

Land Revenue, dated 6th October 1910.

No. R. 2121—L. R. 59-10-2, DATED BANGALORE, 6TH OCTOBER 1910.

ORDER THEREON.—Recorded.

2. As in the previous year, the work done during the year under report consisted mostly of the preparation of the revised final quit-rent registers and final title-deeds.

3. There was a net increase of Rs. 168-12-6 under Land Revenue as the result of resumption of certain inams and imposition of quit-rent on certain newly confirmed inams.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

I. Letter No. 7921, dated the 13th September 1910, from the Chief Engineer of Mysore

"I have the honor to forward, as desired by the Revenue Commissioner, his official memorandum No. 2811-8 of the 30th ultimo, reviewing and consolidating the budget estimates under Irrigation Cess Fund for the current year, together with the individual budget estimates received from the Presidents of the District Boards, and to request that you will be so good as to obtain the formal sanction of Government to the grant under the fund being fixed at Rs. 2,61,000 for 1910-11.

2. The only alteration that has been made in this office is in respect of the provision made by the Revenue Commissioner for "Incomplete Works" of the past year. A lump sum of Rs. 50,000 was provided by him for this item; but from particulars available, a sum of Rs. 36,000 is considered sufficient. The difference of Rs. 14,000 has now been added to the provision made for Bangalore and Mysore Districts under "Fresh works." The grants for the several Districts as now modified will stand as noted below.

District	Incomplete works	Fresh works	Repairs to channels	Total
	Rs.	Rs.	Rs.	Rs.
Bangalore	4,000	29,000	... ...	33,000
Kolar	2,000	17,500	.....	19,500
Tumkur	11,000	25,000	.....	36,000

Hassan	3,000	9,000	16,490	28,490
Shimoga	1,000	6,000	.....	7,000
Kadur	1,000	8,000	.....	9,000
Total ...	36,000	1,16,500	69,031	2,21,531
Establishment at 17½ per cent	.....	.....	.....	38,768
Tools and plant at ½ per cent	.....	.....	.....	1,107
Grand Total ...	.....	.....	.....	2,61,406 or 2,61,000 in round figures.

3. The date fixed for the submission of the Irrigation Cess Fund budget in para 5 of the Revenue Commissioner's memo may kindly be approved so that there may be no delay in the issue of this budget in future years.

4. I request the favor of your obtaining the early sanction of Government to the budget under reference, as it has to be included in the Public Works budget which is now in the Press."

Revenue Commissioner's Official Memorandum No. 2811-8, dated 30th August—1st September 1910, to the Presidents of District Boards.

Subject:—

The marginally noted communications from the several Deputy Commissioners and Presidents of District Boards, submitting budget estimates of receipts and expenditure under Irrigation Cess Fund for the year 1910-11.

No. 1605, dated 16th May 1910 (Kolar).
No. 682, dated 16—27th June 1910 (Chitaldrug).
No. 515, dated 13—15th June 1910 (Kadur).
No. 1, dated 30th June—2nd July 1910 (Hassan).
No. 17, dated 6th July 1910 (Shimoga).
No. 56, dated 19—20th July 1910 (Bangalore).
No. 95, dated 4—6th August 1910 (Tumkur).
No. 117, dated 15th August 1910 (Mysore).

2. Letter No. 904, dated 5th August 1910, from the Comptroller, forwarding a statement of probable assets under the same fund for the year 1910-11.

Receipts.

The estimated receipts are for the several Districts as follows:—

	Rs.
Bangalore	27,532
Kolar	39,427
Tumkur	35,489
Mysore	52,593
Hassan	29,000
Shimoga	40,735
Kadur	18,200
Chitaldrug	12,422
Total ...	2.55.398

Proceedings of the Government of His Highness the Maharaja of Mysore,

The total receipts for the current year may therefore be fixed at Rs. 2,50,000. This together with the balance of the fund on 1st July 1910, *viz.*, Rs. 98,000 as estimated by the Comptroller, brings the total assests for the year to Rs. 3,48,000.

Expenditure.

2. The allotments required for expenditure in the several Districts during the current year on works alone are as shown below :—

District	For the annual maintenance repair of river channels (mileage allotments)	For repairs to major tanks and channels			Total estimate
		Incomplete works	Fresh works	Reserve grant for unforeseen works	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	.....	Not furnished	88,925	.....	88,925
Kolar	.....	.....	16,000	4,000	20,000
Tumkur	.....	Not furnished	32,872	.....	32,872
Mysore	52,503	Do	4,000	19,000	75,503
Hassan	16,490	2,500	8,916	1,094	29,000
Shimoga	.....	579	7,421	2,000	10,000
Kadur	.....	.....	7,276	2,696	9,972
Chitaldrug	.....	1,658	6,200	1,200	9,058
Total ...	68,993	4,737	1,71,610	29,990	2,75,330

The proportionate cost of establishment, tools and plant would be Rs. 49,559. Thus the expenditure estimated by the District Boards is Rs. 3,24,889 or nearly 3·25 lakhs, which is far in excess of the annual receipts and the grants sanctioned in previous years. The detailed estimates do not disclose any real necessity for such an extraordinary heavy expenditure during the current year.

3. The detailed estimates of the districts may be further considered as below :—

Mileage allotments for river channels.—The amounts recommended by the District Boards of Mysore and Hassan under this head do not call for any remarks, except that the estimate for the Mysore District does not take into account the cost of maintaining the Daria Bagh Channel, *viz.*, Rs. 38.

Repairs to major tanks and channels.—The allotments required for *incomplete* works of this class in the Hassan, Shimoga and Chitaldrug Districts may be granted. The District Boards of the other districts have either not applied for any grant for such works or have expressed their inability to state the amount required by them. Under these circumstances, a lump-sum provision of Rs. 45,263 may be made for these districts and may be distributed according to actual need. The total grant for these works will thus be Rs. 50,000 as in the previous year.

Fresh works.—Bangalore District.—The programme for this district provides for 83 works at a cost of Rs. 88,925. But the necessity for such a large outlay has not been explained. In fact, none of the works mentioned in the list appear to have been duly *sanctioned*. Only about 23 of these (items 1, 25*a*, 29*a*, 30, 55, 57, 61 to 65, 69 to 74 and 76 to 81) seem to be urgent or are likely to be taken up during the current year. Further, the propriety of debiting the cost of items *55, 57 and 61 to this fund is open to question. Under these circumstances, an allotment of Rs. 20,000 seems sufficient.

*55 Repairing the bund of the Bevur tank.
57 Do of Harur tank.
61 Do of Ramammanakere.

Kolar District.—The programme for this district provides for an outlay of Rs. 16,000 on 21 works. Estimates are not ready for any of them but most of them are stated to be urgent. The amount required for such works *viz.*, Rs. 13,500, may be allotted. The reserve grant of Rs. 4,000 applied for for unforeseen expenditure may also be sanctioned.

Tumkur District.—Forty-eight works are proposed to be undertaken in this district, and the expenditure estimated for the current year in this connection is Rs. 32,782. But in the case of 14 works estimates do not seem to be ready, and among the rest it is doubtful if items 1, 6—11, 12, 14 and 40—43 which seem to be *original* works and not repairs, can be met from this fund. In the case of the works pertaining to the Gubbi and Sira Taluks, it is not clear if the repairs should be executed at Government cost. In view of these facts, a sum of Rs. 25,000 may be provided for this district.

Mysore District.—The District Board has recommended a grant of Rs. 4,000 for 8 works in the Mandya and Malvalli Taluks as also a lump-sum grant of Rs. 19,000 as applied for by the Executive

Land Revenue, dated 27th October 1910.

Engineer. The estimates for the said works have not yet been sanctioned nor is the necessity for the large reserve grant apparent. It seems therefore adequate for the present to allot Rs. 4,000 for the former and sanction a lump-sum grant of Rs. 6,000.

Hassan District.—A sum of Rs. 8,000 may be sanctioned for 23 works mentioned in the detailed programme, besides a lump-sum grant of Rs. 1,000 for unforeseen expenditure.

Shimoga District.—The District Board have voted for a provision of Rs. 7,491 for 16 works. Estimate appears to be ready for only one. It would be sufficient to grant Rs. 5,000 for these works and a reserve allotment of Rs. 1,000 for unforeseen works.

Kadur District.—The programme for this district includes 29 works estimated to cost Rs. 8,476 out of which the sum of Rs. 7,276 is required for expenditure during the current year. A sum of Rs. 7,000 may be sanctioned for these works. The District Board have recommended a reserve grant of Rs. 2,696 but Rs. 1,000 seems sufficient.

Chitaldrug District.—Nine works are proposed to be taken up in this district. Estimates for the same are not ready but all the works are said to be urgent. An allotment of Rs. 6,000 may be sanctioned for these. A reserve grant of Rs. 1,000 may also be sanctioned.

4. As thus revised, the forecast of expenditure for the current year will be as shown below :—

District	Annual repairs of river channels	Tanks and channels			Total
		Incomplete works	Fresh works	Reserve for unforeseen expenditure	
I. Works—	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	.....	.....	20,000	..	....
Kolar	.....	.....	13,500	4,000	..
Tumkur	... ..	.....	25,000	.....	.....
Mysore	52,541	.....	4,000	6,000	.....
Hassan	16,190	.. ..	8,000	1,000	.....
Shimoga	.....	.....	5,000	1,000	.....
Kadur	.....	.....	7,000	1,000	.....
Chitaldrug	.....	.....	6,000	1,000	.....
Total I. Works ...	69,031	50,000	88,500	14,000	2,21,531
II Establishment at 17½ per cent ...	.....	.. ...	.....	.....	38,768
III. Tools and plant at ½ per cent ...	.....	.....	.....	.. ...	1,107
Deduct for rounding	.....	.....	.....	... ..	406
Grand Total ...	.....	.....	.....	.....	2,61,000

The total grant may thus be fixed at Rs. 2,61,000, which is slightly in excess of the grants for previous years.

5. The District Boards of Bangalore, Tumkur, Mysore, Hassan and Shimoga have delayed too long the submission of their estimates (that of the Shimoga District was received only on 17th August 1910). The estimates should in future be submitted so as to reach this office before 1st March of every year.

6. The estimates too do not appear to have been prepared with proper attention to the instructions issued in the matter. The Deputy Commissioner, Hassan District, has not submitted the estimate of receipts in the prescribed form. There is also some divergence between the estimate of receipts based on the district figures and that of the Comptroller. The estimated receipts merged in land revenue for the several districts (except Hassan and Shimoga) amount to Rs. 1,69,211, while the same for the whole State is Rs. 1,56,444 according to the estimate of the Comptroller. The latter has perhaps not taken into account the increase due to revision survey.

II. Letter No. 4049, dated 30th September 1910, from the Revenue Commissioner in Mysore, recommending the allotment of a further sum of Rs. 1,000, for fresh works in the Kadur District.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. R. 2279-88—L. R. 100-10-3, DATED BANGALORE, 27TH OCTOBER 1910.

ORDER THEREON.—The submission of the budget has been delayed very much, although para 5 of Government Order No. R. 3170-80—L. R. 102-09-6, dated 26th October 1909, requires that the consolidated budget should be submitted to Government before the end of June. The Chief Engineer states that it is absolutely necessary to fix an earlier date than that prescribed at present, as the Public Works budget in which the Irrigation Cess Fund budget is incorporated, has to be issued before the commencement of the year to which it relates. The Revenue Commissioner accordingly proposes and the Chief Engineer agrees that the district budgets should reach the Revenue Commissioner's office before the 1st March of every year. Government accordingly direct that the Deputy Commissioners and Presidents of District Boards should submit their budgets to the Revenue Commissioner before the 1st March of every year and that the consolidated estimates as finally revised by the Revenue Commissioner and the Chief Engineer should reach the Secretariat before the 1st June.

2. The mode of preparation of the budget is still wanting in system and the estimate of expenditure is still not adjusted according to any definite principles. These questions are engaging the attention of Government separately.

3. The estimate of receipts amounting to Rs. 3,48,000 including the opening balance of Rs. 98,000 at the beginning of the year, is accepted, and the grant of Rs. 2,62,000 recommended both by the Revenue Commissioner and the Chief Engineer for expenditure during the year 1910-11, leaving a closing balance of Rs. 81,000, is sanctioned. The grant will be distributed among the several districts as shown below, the amount of Rs. 50,000 provided for incomplete works by the Revenue Commissioner being reduced to Rs. 36,000 as proposed by the Chief Engineer, and the balance of Rs. 14,000 as well as the sum of Rs. 14,000 provided by the Revenue Commissioner for unforseen expenditure, added on to the provision made for "Fresh works."

The distribution of the grant of Rs. 2,62,000 by districts will be as follows:—

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 28th October 1910.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

APPEAL No. 15 OF 1909-10.

Appellant—Narasimha Murthi, residing at Maddur, Mandya Taluk.

Subject.

Appeal against the order of the Revenue Commissioner affirming the order of the Deputy Commissioner, Mysore District, dismissing the appellant's father from the shanbhogi of Maddur firka and depriving the family of the hak to the office.

Facts of the case.

One Lakshminarasiah, the father of the appellant, was the shanbhog of the Maddur firka in the Mandya Taluk. On checking the receipts granted by the shanbhog to the raiyats with the entries made in the kirdi, various irregularities were found out, the most serious being the short credits given in the kirdi for sums acknowledged in the receipts. When confronted with the receipts, the shanbhog tried to explain these omissions by stating that in some cases payment of gutta amount and grazing fees, etc., which were due to him from the raiyats on his own account, was included in the amount acknowledged in the pattas and that in some other instances the Municipal dues collected from the raiyats were entered in the receipts along with the payment of land revenue. Cases in which such explanation was obviously inaccurate were explained away by the shanbhog stating that the receipts were given in anticipation of payment of the balance. The Deputy Commissioner opined that the shanbhog's attempts to explain away the receipts were too absurd to merit any serious consideration and though the man's guilt might not be brought home to him in a criminal court, yet there was a strong moral conviction that the man had been undoubtedly guilty of embezzling Government money in various sums from time to time and so ordered that he should be dismissed the service and his family be deprived of its hak to the office in question. An appeal against this order was preferred to the Revenue Commissioner by the shanbhog's son, the present appellant before Government. The appeal was rejected on the ground that the appellant can have no *locus standi* to question the findings of the Deputy Commissioner, or to claim the office during the lifetime of his father. Hence the appeal to Government. It came for hearing on the 9th of September 1910, when Mr. D. Venkataramiah, B.A., Advocate, was heard for the appellant.

Decision.

The father of the appellant was not subjected to a criminal prosecution, and the Deputy Commissioner's order itself shows that he considers it doubtful whether a prosecution would be successful. The father, even if he did not admit the acts of misappropriation, admitted that he had not credited as much as he had given receipts for, and there were sufficient grounds for dismissing him.

But as far as Government can judge from the records, the case does not seem to call for an order of forfeiture against the family, especially in the absence of a judicial investigation of the case against the father in a criminal court. This part of the order will be therefore cancelled. The appellant will have no claim to ask for the office during his father's lifetime. The petitioner will, if he is otherwise qualified, be given the office after the death of his father.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 1098, dated 30th July 1910, from the Conservator of Forests in Mysore, forwarding his report on the Khedda operations organised and conducted in the cold weather of 1909, from which the following extracts are here printed :—

REPORT ON THE KHEDDA OPERATIONS OF 1909-10.

Preliminary Arrangements.

The proposal to organize an elephant capture so as to synchronise with the visit of His Excellency the Viceroy to the State in the ensuing cold weather was communicated to me by the Dewan in his D. O. No. 20, dated 16th April 1909, with instructions to submit a complete programme of the arrangements proposed, together with an estimate of cost. Upon receipt of this order, I proceeded to the Heggaddevankote and Chamrajnagar forests, and after making a detailed inspection, with a view to determine which of them should be selected for the scene of the contemplated operations, submitted my report on the 1st June. I had the honor of an interview with His Highness the Maharaja subsequently, when he heard my arguments, both in favour and against either of these forests, and decided that the operation must be confined to the Heggaddevankote forests, the scene of several successful captures during the visit of Their Royal Highnesses the Prince and Princess of Wales in 1906.

2. My estimates provided for the capture of 40 elephants, and an expenditure of Rs. 50,000, and this was duly sanctioned. This sum would have been more than enough, had I adhered to my original idea of conducting the entire operation with the aid of the local shikaris, assisted by a few Bengal jamadars and mahouts; but it had to be greatly exceeded, for the reason given below. Government had expressed a wish that a capture of elephants should be effected in the Shimoga District where they were reported to be doing much damage to the crops under the system known as the "Maidan Shikar," for which Bengal hunters are indispensable. I therefore considered it advisable in the interests of economy to deal with the Shimoga elephants on the conclusion of the operations in the Mysore District. The proposal to recruit Bengal shikaris was accordingly placed before Government and met with their approval. Field Inspector Ossumeah, who happened to be in Bangalore then, was at once despatched to Chittagong to recruit and bring down the required number of men. The money required for the wages of the men was remitted to the Collector of Chittagong, who had kindly acceded to our request to see to the payment in his presence. Ossumeah reached Kakankote with 250 hunters and mahouts on the 21st October, and immediately set to work with characteristic energy. The collection of materials for the stockades and of stores and repair of Khedda trenches, as well as clearing of surround lines had been half completed by that time. The Bengal men were found exceedingly useful in building the outer and roping stockades and in earthwork, each man turning out as much work as three of our locals.

General plan of campaign.

3. There are two Kheddas in Kakankote. My plan was to put in order both of them and keep them in readiness, the object being to impound a herd at the earliest opportunity in one, and thus make ourselves certain of showing a capture and to drive another herd from the open forest into the second in the presence of the august guests of His Highness, as was done on the occasion of the visit of His Royal Highness the Prince of Wales. Subsequent events, however, necessitated a slight change in this programme. We were determined from the start not to leave anything to chance and to take all possible safeguards against a failure. In addition to the usual drive and surround lines, I had a line cleared from the Kabbani up to a point near Kalkere, thence the road from Kalkere to Mulehole was cleared. This was intended to be a cordon line to prevent the animals going southwards into the Malabar forests in the event of a herd being sighted anywhere, between the Gundlupet—Sultan-Battery road in the east and the Kabbani river in the west. The left bank of the river was made impregnable by barricades, trenches and escarpments. Men were kept ready at hand to take their places at a few hours' notice on the cordon line referred to and along the river bank.

4. For the feeding of the large army of shikaris, mahouts and subordinates, a contractor was appointed. He was bound down to supply all stores and provisions required for our purpose at fixed rates. Everything except ragi and paddy had to be got from Mysore, a distance of 48 miles.

For looking after the medical wants of the camp, a dispensary was opened. Thus, all details were fully thought out and provided for.

The first drive.

5. At the beginning of November, trackers were sent out in all directions to bring 'khubbar' of elephants. Luckily for us, news was brought on the 3rd, of one herd being sighted near Sunkadakatte in Kakankote forest, six miles from No. 1 Khedda and another at Gundri in the Begur forest, four miles from No. 2 Khedda. We were not fully prepared for so early a drive, as our preparations were not complete. Nevertheless, it was decided to deal at once with the latter herd and to keep the former under observation. The second herd was reported to have been moving in the direction of Kakankote; so steps were taken at once to post stops on the road from Kakankote to Muchoor. As

expected, the herd crossed the river near Naihalla and took shelter in the heavy jungle situated between the river and the road. For want of men it was not possible to do anything more than keep it there undisturbed. The local shikaris who had been hastily summoned from their villages, arrived on the evening of the 4th and by the following morning the surround lines in the Begur forest were completely guarded, and the herd was gently forced to recross the river and enter the surround. The drive from the outer surround line began on the 7th and the herd was slowly driven from one surround into the next until the last line was reached on the 10th. It was hoped that it would enter No. 2 Khedda of its own accord, but it did not. The usual method of forcing it by torches and gun fires was therefore resorted to on the 11th. The herd entered the river late after sunset, and finding no avenue of escape, made mad rushes to either bank, but seeing it guarded by silent watchmen, stood still in the river for quite three hours. We almost gave up hopes of being able to impound it that day, but at about midnight it quietly marched towards the river-gate of No. 2 Khedda and entered the stockade. There it was closely watched, guarded, fed and watered till the 2nd December.

The second drive.

6. It having been reported that the herd sighted near Sunkadakatte on the 3rd was still there, preparations were made to surround it and all the available men were marched off to Sunkadakatte on the 13th in charge of Mr. Muthia and Ossumeah, Mr. Mascarenhas acting as chief guide and tracker. They found more than one herd feeding in detached batches, at long intervals from one another. To bring them together was not an easy task. However, it was decided to surround them all by posting men along a perimeter of 18 miles. This was successfully accomplished; but before the cordon was completed it is believed that several small herds made good their escape We, however, were not keen about securing a large herd in the view of the difficulty of looking after a large number of captives with our small number of kunkis and also on account of the difficulty of securing sufficient branch fodder. The herd proved most intractable; it refused to move in the required direction and broke through the line of beaters twice, but thanks to the pluck and perseverance of our young Forest officers, it was safely shepherded towards the outer surround line of No. 1 Khedda on the 20th. The Dewan came to the Khedda Camp on the 21st and anxious to give him an opportunity of witnessing a drive that day, one and all worked hard to force the animals into the stockade, but the attempt failed. On the following day, a more determined attempt was made; but although the herd came within two hundred yards of the gate, it refused to move further, and broke through the line of beaters. This was a great disappointment to us all, especially, as the Dewan could not be induced to stop a day longer. The third attempt was made on the following day, and the animals were forced to the mouth of the Khedda gate by a fusillade of guns, torches and lines of fires at short intervals. There they stood for quite half an hour in a confused mass, making frantic efforts to rush through the line of beaters and the barricades. At last, exasperated by shots and shouts of the men, half a dozen animals rushed through the gate, but the main body of the herd refused to follow them. While matters were in this critical state, the ponderous iron shutter of the gate dropped down all of a sudden, shutting out the herd from the stockaded enclosure This unexpected mishap threw the whole body of beaters, numbering over 1,000 men, into a hopeless state of confusion and despair. Every one including Field Inspector Ossumeah lost his head and began rushing about madly hither and thither, beating their breasts and foreheads. My efforts to restore order proved futile for a time. The situation was critical in the extreme. The thought of losing a herd which had cost us so much money and labour was too painful to bear, and we were face to face to such a disaster. The lifting of the heavy iron shutter requires 25 skilled men and, with the infuriated elephants at such close quarters, none would undertake the job. Suddenly we saw a figure scaling the stockade and entering the enclosure This was Mr. Muthiah. He was with the driving party at some distance from the gate, and no sooner he realized the situation than he ran round the enclosure and entered it near the gate. He then summoned help to cut open the stockade. Willing hands at once rendered the needed help, and in less than quarter of an hour a gap was made for the animals to enter. Fortunately for us, the trench at this point was very shallow, and no sooner the animals saw an avenue of escape than the main body rushed through the gap, and thus allowed itself to be trapped, but a small herd consisting of five taskers broke through the line of fires and made good its escape Mr. Lodge, Conservator of Forests, Madras, and Mr. Cox, District Forest Officer, Nilgiris, were spectators of this thrilling scene. Needless to say our joy was great and congratulations were showered on Mr. Muthiah and on all who brought about this splendid capture. The herd consisted of 28 animals Its original number was estimated at between 60 and 80.

The third drive.

7. While the events narrated above were going on, a small party of Kurbars under the leadership of Mr Krishnamurti Naidu, Assistant Conservator of Forests, was told off to try and surround a herd reported to have been sighted in the Begur forest close to the surround lines. He accomplished this task in a manner that reflects great credit on his energy and resources. He knew the men and every inch of the forest and the men knew him, he having been Working Plan and Range Officer for several years in that forest. His success is greatly due to this fact The surround was strengthened on the release of the men from No. 1 Khedda on the 24th and the herd kept there till the date of the arrival of the Viceregal party.

8. The day fixed for the great drive was the 28th November. His Excellency the Viceroy accompanied by His Highness the Maharaja and the distinguished party arrived at the platform from which Their Royal Highnesses the Prince and Princess of Wales had witnessed the drive in 1906, at 6-30 P.M. On a signal being given, the drive began. The herd moved slowly, frequently trying to break back, but the pressure from behind was irresistible. Forced by the fire of guns, bursting of

Revenue (Forest), dated 8th October 1910.

rockets, sound of the bugles and shouting of the hundreds of beaters it rushed into the river and marched quickly straight towards Khedda No. 1, at the entrance of which a temporary stockade had been built for its reception. On reaching the river bank, the gate was closed and the animals safely secured. Owing to darkness, Their Excellencies could not get a distinct view of the animals while crossing the river. All they could see was a dark mass moving and hear the splash of water.

9. The Vicoregal party witnessed next day the roping of this herd. The number captured was 14, a small herd, but for reasons already given we should not have welcomed a larger one.

Roping of the first herd.

10. The next noteworthy event was the drive of the herd impounded in Khedda No. 2 into the roping stockade and roping of the captives. This operation was conducted on the 2nd December, in the presence of the Viceroy, His Highness the Maharaja and other distinguished guests. The drive was successfully carried out, and then the trouble began. Among the herd there was a big single tusker (9'-6" in height). As soon as it found itself hemmed in within the narrow limits of the stockade, it commenced to butt and gore the younger tuskers, and at the appearance of the kumkis stepped forward and stood in a menacing attitude ready to fight the intruders. The mahouts were in great freight and hesitated to take the kumkis in. This was a most anxious moment, as we feared that unless the brute was shot the whole show would be spoilt. Rifles were therefore kept in readiness to shoot it down, in case it gave further trouble. This, however, was not found necessary. Taking advantage of a momentary lull, twelve mahouts mounted on six of our most powerful tuskers quickly entered the stockade and kept the huge brute at bay. A few cows were then taken in. After this, all efforts were directed to the tying up of the hind legs of this tusker, which, after several failures, was successfully effected. Two ropes were next passed round its neck, and after making ourselves sure that it was safely secured, it was led out in charge of six kumkis to the river followed by the Viceroy and the distinguished party. The Viceroy then left the Khedda. Thus escorted, the animal was taken to the kraal and safely impounded. This kraal, a present from the Conservator of Forests, Southern Circle, Madras, was a massive structure.

11. The roping was continued till the 8th December. This long detention of the animals within the narrow limits of the roping stockade was forced on us owing to the supply of hemp running out, and it greatly told upon their health. Surrounded by men and watch fires, they remained restless during the whole time and their excreta made the place extremely insanitary. That the supply of hemp was insufficient was not unforeseen, but all our efforts to secure it in the Province had failed, and it had therefore to be wired for from Vizagapatam.

Roping of the second herd.

12. The third herd impounded in Khedda No. 1 was roped in the presence of His Highness the Maharaja and the Royal party, consisting of Her Highness the Dowager Maharani, Her Highness the Maharani and the Sirdars, on the 9th December. The party watched the whole operation with keen interest and left the Kheddas late in the evening, and before his departure His Highness presented five gold and fifteen silver bangles to such mahouts, beaters and trackers as had specially distinguished themselves during the whole operation. At this mark of Royal approval, not only the recipients but also the whole body of shikaris felt themselves highly honoured. This is the first occasion in the history of the Kheddas in which the *Ruler* was pleased to testify his appreciation of the services rendered in so generous a manner. To us, who took a leading part in the operation, this gracious act gave unbounded joy.

Kraaling, tethering, feed and keep of the captives.

13. The roping of the second herd brought the field operations to a close, but the more anxious and responsible work of looking after and training the large number of captives remained still. This taxed our resources to the utmost, chiefly owing to the paucity of kumkis, of which we had only twenty-six. Ordinarily, one kumki is required for two captives, and the number of captives we had to deal with was ninety-two. Anticipating the impossibility of dealing with so large a number with the available kumkis in the usual manner, I had arranged for the erection of a number of kraals on the Malabar system, but simpler in style and cheaper in cost. The kraal is a wooden enclosure 12' × 12' and 10' in height, the side pieces being so arranged as to enable attendants not only to feed and water the animals, but also to treat wounds and sores without the help of kumkis. The usual method is to tether the animals by the heels and neck with hawsers to trees which have to be untied every time the animal is taken to water. The work is most laborious and troublesome, and not unattended with danger. It requires a large number of kumkis, mahouts and attendants. In the case of kraaled elephants, no kumkis or hawsers are required and one cooly can look after two or three animals. The cost of feed and keep is thus comparatively small. The captives in kraals are not subject to any injuries and wounds caused by straining and rope cuts. If the animals are kraaled immediately after they are roped, it seems to me that it is possible to eliminate deaths altogether. The superiority of kraaling over tethering is thus undisputed.

14. Fifty-nine animals were kraaled and the rest, consisting chiefly of young and healthy animals, were tethered. All the captives were well cared for. A copious supply of water was provided by means of a steam pump. The supply of branch fodder gave us more anxiety and trouble, as it had to be brought from a distance of six to twelve miles, and to feed 117 elephants with the branches of a few particular trees, not usually found in heavy forests, was no easy matter. The contractor, Sahukar Syed Mohideen Sab, was, however, equal to the occasion, and met our requirements with commendable readiness.

15. For the treatment of the sick and wounded, a Veterinary Hospital was opened at the camp. and placed in charge of a Veterinary Assistant who was most attentive to his duties. The Inspector of Cattle Diseases, Mr. Narasimiengar, paid several visits to the camp and helped the Officer in charge with his advice.

Disposal of the captives.

16. The number of animals captured in all the three drives was ninety-two, of which one escaped and thirteen died, the heaviest casualty, *viz.*, nine, occurring in the first herd, which, as already stated, was confined in the roping stockade for nearly a week. The kraaling also occupied one month, as the kraals could not be got ready in time. If we had the required number of kraals ready at hand, and the roping in No. 2 Khedda had not been protracted, the casualties would have been very small.

The surviving 78 animals were disposed of as follows :—

Sold	61
Gifted	3
Reserved for Departmental purposes	8
Transferred to the Palace Gajasala	6

A departure from the usual practice of selling the animals at Malabar was made this time, by selling as many animals as we could locally. The number thus sold was 38, the realization amounting to Rs. 63,900; and the rest, *viz.*, 23, were taken to Calicut and sold there for Rs. 44,355. The average price secured per animal locally and in Calicut was respectively Rs. 1,682 and Rs. 1,928. Seeing that all the picked animals had been sold locally, the price realized at Calicut must be regarded as very satisfactory.

17. The following details of sales will, I hope, prove interesting and useful for future reference :—

	Rs.
(*a*) Average price for tuskers of and above 5 feet 6 inches in height ...	2,425
(*b*) Average price for male calves below 5 feet 6 inches in height ...	1,472
(*c*) Average price for cows above 5 feet 6 inches in height ...	1,633
(*d*) Average price for female calves below 5 feet 6 inches in height ...	977

FINANCIAL RESULTS.

Receipts.

18. The sum realized by the sale of 61 animals was Rs. 1,07,565 (exclusive of a remission of Rs. 750 made to the Superintendent of Lal-Bagh) and the 17 animals otherwise disposed of were valued at Rs. 38,700. Thus the total income derived from the capture is Rs. 1,46,205.

Expenditure.

19. The expenditure from beginning to end, *i.e.*, from 1st September 1909 to 30th April 1910, exclusive of the cost of the feed of the Departmental kumkis, amounted to Rs. 81,155 as per details given below :—

	Rs.
(1) Pay and passage money of Field Inspector, jamadars, mahouts, and Bengal hunters	24,696
(2) Rewards to Field Inspector, jamadars, mahouts and Bengal hunters	2,458
(3) Cost of rations to Bengal hunters	5,543
(4) Wages of local shikaris	5,561
(5) Rewards to local shikaris	2,435
(6) Rations to local shikaris	4,110
(7) Khedda repairs, building of stockades and kraals and clearing of drive lines, etc.	6,121
(8) Rewards to local and Palace mahouts	277
(9) Stores and tools	1,759
(10) Feed and keep of captives and Palace elephants ...	22,727
(11) Batta to Palace mahouts	830
(12) Miscellaneous charges	4,638
Total	81,155

It will be seen that the Bengal men alone have cost us nearly Rs 33,000. Had we dispensed with the hunters, we could have saved Rs. 22,000.

Surplus.

20 The net profit accruing from the operation is Rs 65,050, which could have been raised to Rs. 87,000 but for the employment of the Bengal hunters This result, I believe is unprecedented in the annals of the Khoddas, notwithstanding the fact that famine prices had to be paid for food stuffs.

Revenue (Forest), dated 8th October 1910.

No. R. 2162—Ft. 15-10-2, dated Bangalore, 8th October 1910.

Order thereon.—The Khedda operations were carried out in the Heggaddevankote Forests, the scene of the successful captures during the visit of Their Royal Highnesses the Prince and Princess of Wales in 1906. They were, however, conducted on a much larger scale. There were three drives, the first on the 10th November, the second on the 23rd November and the third on the 28th November, the last being witnessed by Their Excellencies the Viceroy and Lady Minto and other distinguished guests. After capture the animals were tamed under the Kraal system adopted in Mysore for the first time.

2. The report is exceedingly interesting and forms a record of great organization, thorough in all its parts, and most successful in its results, and marked by episodes in which much energy, resource, pluck, and even daring, were manifested by individuals who took part in the operations.

3. For the various operations, the services of Field Inspector Ossumeah and 250 men from Bengal, consisting of jamadars, mahouts and hunters, were utilised, and the number of local shikaris and beaters employed was over 1,000. From the experience gained of the men and their work, the Conservator considers that in future operations the local shikaris and beaters may be relied upon to prove quite sufficient to drive and watch the elephants and that the services of the Bengal hunters will not be necessary in large numbers. The Bengal mahouts and jamadars are a valuable body of men and the services of a small number of them will be indispensable for Khedda work.

4. The number of animals captured in all was 92, of which one escaped and thirteen died. Out of the seventy-eight surviving animals, sixty-one were sold, three were presented to institutions, eight reserved for Departmental purposes and six transferred to the Palace Gajasala.

5. Of the captures, thirty-eight animals were sold locally, realising Rs. 63,900 and the remaining twenty-three were taken to and sold at Calicut for Rs. 44,355. The average price secured was thus Rs. 1,682 and Rs. 1,928, locally and at Calicut respectively. The sum realised by the sale of sixty-one animals was Rs. 1,07,505 (exclusive of a remission of Rs. 750 made to the Superintendent of the Lal-Bagh, one of the animals taken by the Superintendent having died during transit). And the seventeen animals otherwise disposed of were valued at Rs. 38,700. Thus the total income received from the capture was Rs. 1,46,205. The total expenditure of the Khedda operations under all heads amounted to Rs. 81,155, the net profit accruing from the operations being thus Rs. 65,050. The financial results of the operations are thus very satisfactory.

6. The Government desire to convey to Rai Bahadur Mr. M. Muthanna their thanks for the very able manner in which he organised the operations so as to secure unprecedented success. The manner in which the whole operations were carried out reflects, at the same time, much credit on the several officers who cooperated with him, and the thanks of Government will be conveyed to them also.

Proceedings of the Government of His Highness the Maharaja of Mysore, Financial (General Finance), dated 28th October 1910.

READ—

Government Order No. C. 61—G. F. 104-05, dated the 8th June 1910, issuing instructions in regard to the grant of Lavajama or daily allowance to officers in service proceeding to Mysore in connection with the Wedding and Birthday Festivities.

2. Correspondence ending with letter No. 570-9, dated the 23rd July 1910, from the Comptroller, requesting the orders of Government as to whether the daily allowance claimed on behalf of officers and establishments for halts of over ten days at Mysore on the occasion may be admitted in audit without the sanction of Government in each case and soliciting specific orders in the matter of travelling allowance to non-official gentlemen and retired officers who proceeded to Mysore in response to invitations from the Palace.

No. FL. 2075-115—G. F. 8-10-4, DATED BANGALORE, 28TH OCTOBER 1910.

ORDER THEREON.—Government are pleased to direct that a general exemption from the ten days' rule be given on this occasion in the case of Heads of Departments, Deputy Commissioners, their office establishments and officers certified by countersigning officers to have been at Mysore on duty connected with the wedding. This includes the cases of Police officers, Amildars and others posted for special duty on this occasion.

2. Retired officers invited as guests will be allowed their actual travelling charges to and from Mysore in accordance with the scale laid down for retired officers going to Dasara. Such of them as are not usually invited for the Dasara will be entitled to a single return railway fare of the class by which they were entitled to travel at the time of their retirement and return third class fare for not more than one personal servant in each case.

3. As regards non-official guests, no orders are necessary, as it is not usual to claim or pay travelling expenses to them on such occasions.

Letter No. 256– 6-8-102, dated 2nd September 1910, from the Registrar of Co-operative Societies, reporting in regard to Dasara Subject No. 144-09, *viz.*, the Establishment of Grain Banks, that there are certain practical difficulties in the way of establishing these institutions, such as the collection and storage of grains, that the Conference of Registrars held in Simla, in November 1906, after discussing the question, was of unanimous opinion that honest and effective management and appropriate storage were essential conditions for Co-operative Grain Banks, which, under existing conditions in the rural area, were difficulties impossible to overcome, that these Banks by themselves were inadequate to meet the requirements of the agriculturists and finally, that as Cash Banks served the purpose of these Banks better, besides being useful in other ways, Government need not specially encourage their establishment.

To

SIR,

In forwarding herewith an extract * from a letter dated the 26th August 1910, from the Secretary, United Planters' Association of Southern India, I am directed to request that special attention may be devoted to the execution of the warrants referred to therein and that due notice may be taken of the conduct of the Police where non-service is due to their negligence.

* I have the honor to bring to your notice the following Resolutions which were adopted at the recent Annual General Meeting of this Association.—

"That this Association place on record its opinion that the non-service of warrants under Act I of 1903 and Act XIII of 1859 is still of frequent occurrence in the Coimbatore District and Mysore; and request that Governments concerned increase the Police force in those districts, in which labour is largely recruited for plantation work.

" " " " "

2. The Association desires me to express the hope that the representations here made will receive the careful and favorable consideration of His Highness' Government.

I have the honor to be,
Sir,
Your most obedient servant,

1. Government Proceedings No. 6044-54—Ml 177-09-6, dated the 20th January 1910, directing among other things that the rate on buildings and lands and certain other taxes in Municipalities governed by Regulation No. VII of 1906, shall be levied in two equal instalments in advance in July and January respectively of each year.

2. Letter No. 226, dated the 12th April 1910, from the President of the Bangalore City Municipal Council, submitting a copy of the resolution of the Municipal Council, dated the 31st March 1910, suggesting the recovery of the house and other taxes in two equal instalments within the 30th June and 31st December of each year but not in advance, as such a system would work as a hardship especially in the case of the poor; and requesting a reconsideration of the Order above referred to.

No. 3273-5—Ml. 177-09-8, DATED BANGALORE, 8TH OCTOBER 1910.

ORDER THEREON.—Government are of opinion that the collection of the Municipal taxes of each year before the close of that year is very necessary and desirable from an administrative as well as a financial point of view and that the Order of the 20th January 1910, above referred to, which aims at that result should be left unchanged. As regards the alleged hardship to the poor, such, if at all, would occur only in the first payment when the scheme is brought into force and local officers can exercise the requisite leniency in enforcing payment in the early stages.

The Reports on the working of the Vaccine Institute, Bangalore, and of the Vaccination Department in the State for the calendar year 1909, received with letters Nos. 5809 and 868, dated the 1st June and 15 August 1910, respectively, from the Sanitary Commissioner.

No. 3534—SAN. 201-09-6, DATED BANGALORE, 28TH OCTOBER 1910.

ORDER THEREON.—Of the five Deputy Inspectors of Vaccination, who had been deputed to undergo training in sanitation at Madras, four returned with certificates. These were appointed District Sanitary Assistants with effect from the 23rd August 1909.

2. The vaccination work performed during the year was on the whole satisfactory. The total number of vaccination operations performed was 117,831 as against 99,504 in the year 1908. Of these, 98,471 were performed by taluk vaccinators and in the Vaccine Institute 13,907 by Medical subordinates and 5,453 by Municipal vaccinators as against 90,787, 5,012 and 3,705 in the previous year. As in the years 1907 and 1908, the largest number of vaccinations was in the Kolar District, the number for that district during 1909 being 30,878. The Kadur District returned the smallest number, 5,420 cases. The number of children under one year successfully vaccinated during the year increased from 17,785 to 18,606. The number of successful cases under primary and secondary vaccinations was 99,380 or 95·69 as against 88,938 or 94·84 in the previous year and the number successful under revaccination was 5,435 or 60·48 as against 1,847 or 54·95 in 1908.

3. The number of deaths from small-pox increased from 1,890 in the previous year to 6,189, the ratio per mille of population having thus gone up to 1·14 from ·35 in 1908. The proportion of deaths from small-pox per thousand deaths from all causes was 64·82 against 20·93 in the previous year. It is observed that the Districts of Mysore and Bangalore fared the worst from the epidemic, the mortality having been 2,352 and 1,840 respectively. The Districts of Kolar and Tumkur also suffered badly. It would be interesting to know how many of the deaths from small-pox were of persons who had been vaccinated.

4. The cost of the Department excluding that of the Vaccine Institute was Rs. 19,712 as against Rs. 19,412 in 1908. The average cost of each successful vaccination was Re. 0-3-4·39 as against Re. 0-3-6·73 in 1908. The cost was highest (Re. 0-7-11·90) in the Shimoga District and lowest (Re. 0-1-6·27) in the Kolar District.

5. There was a slight increase in the number of cases inspected by the Deputy Inspectors of Vaccination from 60,106 in 1908 to 60,705 in 1909. The number inspected by the Medical subordinates increased by nearly 30,000 from 38,296 in 1908 to 68,005 in 1909.

6. As in 1908 so in the year under review, vaccination remained compulsory in the Bangalore and Mysore Cities and on the Kolar Gold Fields and the system of compulsory vaccination was tentatively introduced into the undermentioned places in the State for a period of two years:—

District	Municipal Board
Bangalore	Anekal. Magadi. Channapatna. Dodballapur Nelamangala.
Kolar	Chintamani. Sidlaghatta. Chikballapur. Goribidnur. Bagepalli. Gudibanda

Local Fund and Sanitary (Sanitary), dated 28th October 1910.

District				Municipal Board
Kadur	...	...	...	Chikmagalur. Kadur. Birur. Tarikere. Koppa. Mudgere.
Shimoga	...	...	...	Shimoga. Kumsi. Channagiri. Shikarpur. Kallurkatte. Tirthahalli.
Chitaldrug	...	...	...	Hosdurga. Molakalmuru. Challakere.

7. The proposal to appoint Hospital Assistants as public vaccinators, referred to in the Sanitary Commissioner's report, has since been approved by Government and orders issued.

8. Government are glad to note that there has been a steady improvement in the work done in the Vaccine Institute both as regards the quantity of vaccine manufactured in the Institute and that supplied to the Medical officers and subordinates in the State and to stations outside it.

9. The total number of calves purchased during the year was 253 at a cost of Rs. 1,616 as against 398 at a cost of Rs. 2,481 in the previous year.

The net cost of the working of the Vaccine Institute was as follows:—

	1908	1909	Difference
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Expenditure ...	8,346 2 9	7,209 9 7	—1,136 9 2.
Income ...	3,070 6 6	2,808 8 3	—261 14 3.
Net cost ..	5,275 12 3	4,401 1 4	.....

The average cost for 100 units of vaccine was Rs. 2-1-7·5 against Rs. 2-10-5 during 1908.

10. Government also note that the experiments made to test the potency of vaccine proved that the samples were good and they are glad that the vaccine supplied by the State Vaccine Institute to various foreign officers was found by the latter to be very effective. They have reported that out of 24,125 vaccinations which were made from the State vaccine lymph, there was an average of 98·33 per cent of success.

Government Order No. G. 6059-106—G. P. 18-09-5, dated the 19th May 1910, according Mr. V. S Sanjiva Rao, Representative of the *Hindu* at Bangalore, permission to remove the waste paper belonging to the various Departments of the State at Rs. 5 a ton.

2. Subsequent correspondence on the subject ending with letter dated the 5th October 1910, from Mr. Sanjiva Rao, agreeing to take the waste paper referred to above at Rs. 2-8-0 a ton, the original rate of Rs. 5 per ton being reduced by the Government on his further representation.

No. G. 57-96—G. P. 18 of 09, DATED, CAMP MYSORE, 12TH OCTOBER 1910.

ORDER THEREON.—Mr. Sanjiva Rao having agreed to take the waste paper in question at the reduced rate of Rs. 2-8-0 per ton offered by the Government in consideration of his further request, Government direct that he be permitted to remove it at that rate instead of at Rs. 5 per ton, the other arrangements ordered in the Government Proceedings read above regarding the removal of the paper, the recovery of its cost, etc., being the same.

Government Proceedings No. G. 1223-63—G. M. 270-06-91, dated the 24th August 1908, directing the supply, tentatively for a period of two years, of typewriting and carbon papers from the Stationery Depot to certain public offices in the State and requesting the Superintendent of Stationery to submit a report on the working of the arrangement.

2. Letter No. 107, dated the 3rd August 1910, from the Superintendent, Government Stationery Depot, submitting the report required and recommending that the arrangement mentioned above may be made permanent with certain modifications.

No. G. 2446-93—G. M. 67-10-2, DATED BANGALORE, 11th OCTOBER 1910.

ORDER THEREON.—As the scheme in question was sanctioned about the end of August 1908, the supplies made during the year 1908-09 were only partial. The Superintendent has therefore been able to furnish in the above report figures only for one year, *viz.*, 1909-10. If the cost of paper has to be included in the budget of the Stationery Department, a corresponding reduction should be made in the contingent grants of the various offices who now pay for the paper from such grants. As stated by the Comptroller, who was consulted on the point, the figures of a single year are not a sufficient guide for the purpose.

2. Government are therefore pleased to direct that the tentative arrangement sanctioned in the Order read above be continued for a further period of two years with the modification that indents should hereafter be made once a year by each office before the month of December so as to allow the Comptroller sufficient time to transfer the value (of typewriting and carbon papers supplied) from the contingent grants of the several offices to the grant of the Superintendent of Stationery before the close of the year.

3. The Superintendent of Stationery is directed to furnish Government with a report on the above arrangement at the end of the period of two years.

No. G. 2571-2617—G. M. 141-10-1, DATED 27TH OCTOBER 1910.

ORDER.—As some misapprehension seems to exist regarding the nature of the Dasara holidays, Deputy Commissioners, Heads of Departments and other Officers whose duties require their attendance at the Dasara Representative Assembly, are hereby informed that they should not regard the Dasara holidays as holidays which could be tacked on to other leave under Article 145 of the Mysore Service Regulations. Any permission that may be granted as a special case to prefix or affix the Dasara holidays to other leave must be understood as subject to the qualification that the Officer concerned shall be liable to forfeit his emoluments for the period of the Dasara holidays, when his absence entails extra charge on the Government.

Government Proceedings (P. W.) No. 354-61—2275-82 dated the 24th March 1909 conveying sanction to two projects, one for laying out new extensions for the Shimoga town, and the other for the water supply to the same town including the extensions.

No. 1118-26—8970-8, DATED BANGALORE, 22ND OCTOBER 1910.

ORDER THEREON.—As there seemed to be a conflict of views and objects in connection with the works in progress for the extension and sanitary improvement of the town of Shimoga, and the Municipality also expressed a desire for an enquiry into the matter, the Chief Engineer discussed the subject with a deputation of the Municipality at which the Municipal Councillors with the President and Vice-President, the Sanitary Engineer, and the Executive Engineer, Water Supply and Stores Division, were present. The result of his enquiry and inspections is embodied in the note read above.

2. The proposals of the Chief Engineer, which have been unanimously approved by the Municipality and the local officers, are:—

(1) That the old town be retained and its sanitation improved by carrying out suitable surface drainage works and clearing undergrowth;

(2) That the extensions be limited, for the present, to the Durga Gudi and bungalow sites measuring about 37 acres, and when about 75 per cent of the available sites are built upon, the question of additional extensions may be considered; and

(3) That the saving of Rs. 30,000 expected by limiting the new extensions be devoted to the improvement of surface drainage in the old town.

3. Government are pleased to approve of the proposals generally. They desire at the same time that the cost of the improvement of the old town should be limited to Rs. 50,000 for the present, that the construction of new houses there be discouraged and the townspeople given every facility to build houses in the extensions.

4. The Sanitary Engineer will be requested to submit a project for the improvement of the town on the lines now approved.

5. The application of the Shimoga Municipal Council for a loan of Rs. 20,000, and for the appropriation of the saving of Rs. 30,000 in the Government grant effected by the present proposals towards the cost of draining and clearing the old town, will be dealt with separately.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Note dated 30th May 1910 by Mr. M. Visvesvaraya, M. I. C. E., Chief Engineer, submitting revised proposals on the subject of the sanitary improvement and extension of the town of Shimoga.

SANITARY IMPROVEMENTS TO SHIMOGA.

Preliminary.

During my visit to Shimoga at the beginning of this month, I spent some time inspecting the town, and on the 2nd May 1910 met, by request, the President, the Vice-President and members of the Municipality, and exchanged views with them in regard to the measures in progress for the improvement of the town.

The Sanitary Engineer and the Executive Engineer, Water Supply and Stores Division, attended the meeting to furnish information and answer questions. My Special Assistant, Mr. Krishna Iyengar, who had served as Executive Engineer at Shimoga for five years and prepared a drainage scheme for the town, was also present.

2. The following subjects were discussed at the meeting:—

(1) Water-supply.
(2) Town extensions.
(3) Improvements to the old town.
(4) Drainage and sewerage.

Water-supply.

3. Government in their Proceedings No. 354-61—2275-82 dated 24th March 1909, have sanctioned a project estimated at Rs. 65,592 for the water supply of the old town and extensions. Half the cost is treated as grant-in-aid and the other half as a loan to the Municipality. This project provides for a daily supply of 100,000 gallons at 10 gallons per head for a prospective population of 10,000 but as the present population is only about 6,000, the installation will give a supply of 16 gallons per head. As the actual average consumption at Bangalore and Mysore at present is only 13 gallons, the supply may be considered as very reasonable for a commencement.

The pumping and filtering plant is compact and well-arranged. Although it does not admit of expansion, the installation is very well suited for the present wants of the town.

A duplicate pump will have to be provided sooner or later to make the system complete, but this may be done after the installation has been at work for some time and given satisfaction.

4. The Municipal Councillors requested that four more fountains might be added in the old town to the existing 13 fountains and the 3 balancing tanks. The Executive Engineer, Water Supply and Stores Division, agreed to provide these out of the savings.

The Municipality propose that permission be given to private benefactors to erect about 15 fountains at their own cost. After discussion, the President and members agreed that the additions might be deferred till the installation had worked for a few months. Offers for charitable fountains may be welcomed as they will tend to a more equitable distribution of the supply and add to the convenience and comfort of the people.

The necessity for the speedy completion of the high level balancing tank and the provision of 2 or 3 fountains in the Durga Gudi extension to induce people to build houses in that extension was also admitted.

5. There is now a clear understanding, in all matters connected with the water-supply, between the Municipality and the Public Works Department. As the full allotment needed is available, the water works are expected to be ready in six or eight weeks' time.

Town extension.

6. In the Government Proceedings quoted above, which sanctioned the water supply, a project for laying out new extensions on the high ground away from the river has also been approved at an estimated outlay of Rs. 66,150, as under:—

	Acres.
(1) Durga Gudi extension—	
House sites	11·7
Bungalows	25·6
(2) Travellers' bungalow extension	14·7
(3) Extension No. 2, close to Mr. Ranojee Rao's house ...	22·2
Total area ...	74·2

These extensions are scattered and far from business centres and the old town. Even if a water supply be available, there is little prospect of all these extensions being occupied within any reasonable interval.

Public Works, dated 22nd October 1910.

There are 562 house sites of all sorts in the proposed extensions. Taking the average cost of each house at the low figure of Rs. 800, the capital required to build the houses will be about 4½ lakhs of Rupees. The town is not in a prosperous state. The resources of the people have been crippled by repeated outbreaks of plague and other epidemics. For the present, at all events, the people cannot afford the expense. There has been talk of extensions for the past ten years but only half a dozen substantial houses have sprung up so far. It seems as if Government will have to wait for customers for these extensions for many years after spending large sums to provide roads and water supply.

7. Under these circumstances, caution is necessary and it is desirable to wait till one extension at least is three-fourths filled before spending money on laying out new ones.

Durga Gudi extension, as being the nearest to the old town and the most compact, is considered a suitable one to take in hand for a commencement.

If necessary, building plots may be marked off in the remaining extensions also, if people choose to acquire land at their own cost and build there. Roads and water supply may follow as soon as a sufficient number of houses are built to justify additional outlay on such conveniences.

8. The members of the Municipality also brought to notice the desirability of clearing out the old Durga Gudi village which by its insanitary condition is a menace to the safety of the new extension. It was urged that the village might be removed and roads run through it and new sites marked out although these latter might not be immediately utilized for building purposes. The Sanitary Engineer has been asked to report on this question in consultation with the local officers.

Up to the present, a sum of Rs. 14,000 has been spent on the extensions and about Rs. 21,000 more may be required for completing the Durga Gudi extension. If the remaining extensions are omitted for the present, there will be a saving of Rs. 30,000 in the grant given for this purpose.

Improvements to the old town.

9. Incidentally, the impracticability of the abandonment of the old town was urged by the Municipal Councillors and suggestions made for the improvement of the existing town. The old town consists of ill-kept open spaces and straggling houses with large compounds and back-yards, the latter being overgrown with lantana and other noxious vegetation. The ground is uneven with pits, hollows and drains in which water stagnates for months, and extensive low-lying tracts are submerged by the backwater of the river during floods. The accumulation of slime and rotten vegetation on such occasions fills the air with pestilential vapours.

10. The improvements most urgently needed appear to be the following :—

(1) Clearance of rank vegetation and scrub jungle.

(2) Filling in or draining all insanitary pits and hollows and sloping down flat areas so that the storm water may drain off into the river as soon as possible after actual rainfall.

(3) Opening out a road along the bank of the river and policing the bank for protecting the sanitation of the river.

(4) Filling up all pit privies and daily removal of nightsoil.

(5) Provision of more efficient conservancy, latrines in the houses of well-to-do persons and more public latrines for the poor.

(6) Draining off all small *kattes* and tanks in the inhabited area. Prohibition of rice cultivation within ¼ mile of the town.

11. Unless the majority of the people are agreed, I do not wish to press the construction of a road along the river front but it seems a pity that people should have put their back yards along the river to the detriment of its beauty and sanitation. A river front is an asset much prized all over the world and the townspeople should take a pride in making a good road and decking it with their best houses.

If the town is ever to become healthy, these improvements must be taken up in earnest by the Municipality and sustained efforts made to secure the co-operation of the people for keeping the yards, open spaces and surroundings of houses clean.

Surface drainage.

12. The one improvement of which the old town is most urgently in need is surface drainage. A proper scheme for storm water drains and for filtering, levelling and sloping uneven ground wherever it exists seems urgently called for. If Government have no objection, the saving of Rs. 30,000 referred to in para 7 above, may be utilized on this work. I understand the Municipality is willing to borrow Rs. 20,000 more from Government, that is, to provide Rs. 50,000 in all for improving the surface drainage of the town and clearing away vegetation down to the river bank.

Sewerage.

13. A drainage scheme costing 3½ lakhs was once proposed but with diminishing population there is no chance of such a costly scheme being carried out.

On account of the straggling character of the town, sewers will be expensive to make and maintain, and there will not be enough sewage to justify the large outlay needed for such a system. It is proposed to postpone the consideration of the sewerage question for two or three years more. In the meantime, the conservancy of the town should be rendered more efficient

Conclusion.

14. In the matter of Municipal improvements in progress, there is an obvious lack of consistency and directness in the measures and methods followed.

The ultimate object is stated to be to abandon the old town and build on a new site. The town is covered with vegetation throughout the year and is therefore either a swamp or a jungle or both. Having for a long time neglected the elementary precautions of draining the town site and keeping it clear of superfluous vegetation, the proposal is made to abandon the town altogether.

To abandon 2,800 houses will mean surrender of property worth not less than Rupees ten lakhs. The construction of 1,200 houses more for a population of 6,000 will not cost less than five lakhs. The population is thinning and the town is declining in prosperity and trade. To expect at such a time that a new and healthier town will spring up is to hope for the impossible.

The extensions marked out provide only 500 house sites. Government will have to prepare at least 700 more at an additional outlay of perhaps another lakh.

15. As stated above, Government have sanctioned Rs. 65,592 for the water supply, of which one half is debited to the Municipality, and Rs. 66,150 for town extensions, the whole of which is borne by Provincial Funds. The net cost of the measures to Government is roughly one lakh. If the town is to be abandoned, the provision of a water supply will retard, not accelerate, such a consummation. More direct and drastic measures are necessary. If it is to be retained, then let us set about draining, clearing and making it more healthy in addition to providing a water supply.

It is necessary to make up our mind as to what we want to do and bend all our energies to the attainment of those objects in as direct a manner as possible.

16. If the measures are not more definite and direct, the result will be a waste of money and the creation of a yet more straggling town, ill-kept, ill-drained and overgrown with vegetation, than the present one.

I am therefore of opinion :—

(1) That the old town should be retained and its sanitation improved by carrying out suitable surface drainage works and clearing undergrowth ;

(2) That the extensions should be confined for the present to the Durga Gudi and bungalow sites measuring about 37 acres. When about 75 per cent of the available sites are filled with houses, the question of additional extensions may be considered ;

(3) That the saving of Rs. 30,000 expected by limiting the new extensions may be devoted to the surface drainage works in the old town ;

(4) That the Municipality should be induced to contribute Rs. 20,000 as their share of the cost of draining and clearing the old town, the total devoted for the purpose being Rs. 50,000. The Municipality will require a loan of Rs. 20,000 for the purpose ; and

(5) That the question of sewerage, *i.e.*, the disposal of sullage water and liquid wastes by suitable drains, may lie over for three years more.

17. If these measures, which are clear and which harmonise with one another, are accepted by Government and carried out, the Municipality will have within the next two or three years what it never had hitherto, a town well-drained and free from vegetation as well as a small compact extension. A good water supply is already within reach.

18. I am obliged to the President, Mr. K. Srinivasa Rao, and the Vice-President, Mr. L. Krishna Rao, for affording me every facility in obtaining correct information. Mr. Krishna Rao went round the town with me, and was untiring in drawing attention to undrained areas, ill-kept open spaces, insanitary streets and dilapidated houses, in which, unhappily, the town seemed to abound.
